**REMARKS/ARGUMENTS**

The specification has been amended to conform with the drawings and in particular the columns 16 set forth on page 8 line 6 is shown in Figure 1 by the numeral 5, the pad identified on page 9 line 6 has been corrected to the correct number 4 and on line 8 the term pad has been deleted and replaced with the correct component as being the rigid support 6, the number for the half-sphere on page 9 has been corrected to 28' and the symbol for the M1 and M2 for the electric motors deleted in the specification and the statement with respect to the fourth embodiment on page 18, line 34 is corrected to the third embodiment.

A new abstract of 150 words is presented.

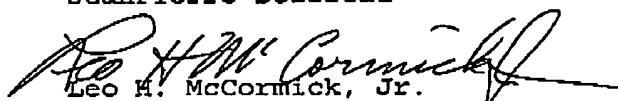

The drawings have been amended to correspond to the specification, columns 16 are corrected to the number 5, the terms M1 and M2 for motors have been deleted from the specification and the plane Y' has been identified in Figure 8.

Claims 1-13, 16 and 19-22 that were rejected under 35USC 112 and claims 1-3, 4,5,6,12,13, 16 and 19-22 were rejected under 35USC 102 and 103 have been deleted. The subject matter of claim 7 shown to allowable over the prior art has been rewritten in independent form as new claim 23 after distinctly claiming the invention.

Claims 24-33 relating to the particular structure of the components of claim 23 have been added added to further cover the invention.

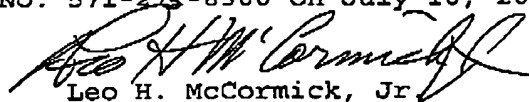

This amendment places this application in condition for allowance.
